Vision Care leads COVID-19 Relief Efforts

While the pandemic made it difficult for our Vision Care doctors, nurses and other medical volunteers to travel to various countries this past year, we quickly adapted to the "new normal," working with our local partners and sponsors to deliver essential food items and PPE to low-income families/communities and frontline health workers whose lives were affected by COVID-19.

Countries where we delivered essential supplies include **Sri Lanka, Nigeria, Vietnam, Kyrgyzstan, Mauritania, Morocco, Peru, Mozambique, Uganda, Guatemala, Bangladesh, Pakistan, and Tanzania.**

Below are some examples of Vision Care's global work for COVID-19 relief.

Pakistan

- Essential food items were delivered to 40 essential workers (security, janitorial and other physical workforces) at UCH Hospital and their households in Lahore, who were unable to receive income for the past several months.
- Other relief items, including thermometers, masks, and hand sanitizers were delivered to hospital staff to help maintain a safe work environment for health care workers.
- We also delivered care packages to 90 families who lost their jobs during the COVID-19 pandemic.

Nigeria

- Vision Care, in partnership with Samsung Heavy Industries Nigeria, delivered bags of rice and over 10,000 masks to low-income communities in Lagos, Bayelsa, Kano, and Jigawa provinces.
- PPE, oxygen concentrator, and other medical equipment were delivered to hospitals with high volume of COVID-19 patients.

Mauritania

- Essential food items such as rice, oil, and baby formula were delivered to 150 households in Riyad Province.
- These care packages were specifically delivered to single-parent families, families of individuals with disabilities, and those who lost their jobs due to the COVID-19 pandemic.

China

- In partnership with LG, Vision Care delivered essential food items to low-income

households, particularly those who lost income due to the pandemic.

- PPE and basic sanitation supplies were delivered to health care workers in Liaoning Province, Nanjing, Guangzhou, and Huizhou.

Many countries still suffer from the consequences of the COVID-19 pandemic, affecting the most vulnerable populations. In 2021, our goal is to continue to serve these communities with the support of our donors, volunteers, and partners.

Please send us much-needed support & prayers as we continue to provide COVID-19 relief in 2021.

Thank you!
