VISION CARE

Vision Care Doctors & Nurses Lead Surgical Training in Tanzania

In addition to our traditional surgical Eye Camps, Vision Care is dedicated to teaching and training local eye care providers in underserved areas of the world through strong, ongoing partnerships.

And this month, we are so pleased that our medical teams were able to travel again in person

to Dar es Salaam, Tanzania to train 4 ophthalmologists and 4 surgical nurses at the Muhimbili National Hospital through our two core programs - Phacoemulsification Training Course (PTC) and Surgical Ophthalmic Nurse Training Course (SONTC).

We will continue to focus our mission to equip the local eye care providers with the training needed to develop self-sufficient and sustainable eye care.

Thank you for your continued support!
