

Introducing Our New Board Member

We are delighted to introduce our newest board member of Vision Care USA, **Dr. Dong-wouk Park**.

Dr. Dong-wouk Park is an assistant professor of ophthalmology at the Oregon Health and Science University School of Medicine. Dr. Park sees patients in the adult comprehensive clinic in Portland, Oregon, and also provides medical retina services in Astoria, OR, and Vancouver, WA.

After receiving his medical degree at Rosalind Franklin University and completing his residency at Casey Eye Institute, Dr. Park spent two years at a Mayo Clinic satellite before completing his fellowship in medical retina at the Cleveland Clinic and returning to Casey Eye Institute.

His previous research has been focused on imaging in retinal diseases with a special interest in the delivery of care in underserved areas, and he enjoys teaching residents and volunteering at the local Casey Community Outreach Mobile Clinic.

Dr. Park has extensive experience in overseas cataract mission trips, and prior to joining the Vision Care USA board, Dr. Park has led a Phacoemulsification Training Course (PTC) in Tanzania and Eye Camps in Morocco. He will be joining the Morocco Eye Camp for the third time in April.

Dr. Park, thank you for all your dedication to strengthening sustainable eye health, and welcome to the Board!

Sincerely,

Vision Care USA

[2024 Vision Eye Camp Schedule](#)
