VISION CARE
ANNUAL REPORT

Sharing
a Brighter World
Together

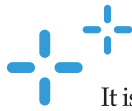

RESTORE SIGHT, SHARE VISION!

Sharing a Brighter World Together

Thank you for Helping us Spread the Light of Hope

It is with great pleasure and gratitude that I share our accomplishments of 2017.

During this past year, we met countless numbers of people and families from all over the world, each with unique stories – yet all of them coming with the single hope of seeing again. And when we encountered that moment of joy one experiences when regaining sight, we also saw the hopes of improving the lives of not only those individuals, but also their families and their communities.

According to the 2017 report from the IAPB (International Agency for the Prevention of Blindness), 253 million people are blind or visually impaired, and among them, over 65 million are due to cataracts. And while 75% of blindness and serious vision loss can be prevented through appropriate treatment and surgery, 89% of the affected population live in developing countries where for many, quality health care services are unattainable. Moreover, due to global population growth and population aging, it is expected that the prevalence of blindness can potentially increase threefold by 2050. Given this environment, we feel a greater responsibility to actively address avoidable global blindness in the New Year.

In the upcoming year, we anticipate your abounding encouragement and participation as we continue to Spread the Light of Hope in 2018.

Thank you.

Sincerely,

Dr. Donghae Kim
Founder and President of Vision Care

Vision Care Spirit

Vision Care is an international relief organization dedicated to the prevention of blindness, currently working in 38 developing countries throughout Africa, Asia, and Central and South America. We aim to improve the lives of all people throughout the world who are suffering from vision problems, regardless of their race, color, creed, national origin or religion.

Vision Care is a member of the International Agency for the Prevention of Blindness (IAPB), and participant of 'VISION 2020', a global initiative of the IAPB and the World Health Organization (WHO).

MISSION

As God commands us to love our neighbors and serve them with His love and compassion, we go all over the world to help those who are suffering, especially those with vision impairment, so that they will be able to see with healthy eyes, mind and spirit.

CORE VALUES

1. Voluntary service
2. Professionalism
3. Field-based
4. Collaboration

VISION

We aim to let the world know that although vision problems can be recovered by proper preventative measures and timely treatment, there are many people losing their sight daily due to lack of resources and poor living conditions. We help patients receive treatment at short-term eye camps and long-term clinics, with doctors, missionaries, volunteers, and sponsors all working together.

History

Mar. 2002	Established 1st Vision Care Eye Center in Pakistan
Sep. 2002	1st Eye Camp in Karachi, Pakistan
Mar. 2005	Registered as a non-profit organization Vision Care Service in Seoul
Apr. 2008	Registered as a member of the International Association for the Prevention of Blindness(IAPB)/WHO
Dec. 2008	Registered as a corporation aggregate affiliated with the Ministry of Foreign Affairs and Trade (Vision Care)
Jan. 2009	Established 2nd Vision Care Eye Center in Mongolia
Sep. 2009	1st VCOM(Vision Care Ophthalmologist Meeting) in Korea
Apr. 2010	Founded Vision Care East branch in Fairfax, Virginia
Sep. 2010	Established 3rd Vision Care Eye Center in Ethiopia
Mar. 2011	Asia-Pacific Academy of Ophthalmology <Outstanding Service in Prevention of Blindness Award>
Apr. 2011	Founded Vision Care West branch in Los Angeles, California
Oct. 2011	100th Eye Camp in Mexico
Apr. 2012	2nd VCOM(Vision Care Ophthalmologist Meeting) in Korea
Sep. 2013	Selected by IAPB <Eye Health Leaders 2013>
Nov. 2013	Awarded <2013 Asan Award for Medical Volunteerism>
Dec. 2014	3rd VCOM(Vision Care Ophthalmologist Meeting) in Korea
Nov. 2015	200th Eye Camp in Uganda 4th VCOM(Vision Care Ophthalmologist Meeting) in Korea
Apr. 2016	Established Vision Care USA HQ in New York City
Jul. 2016	"Let's Make a Brighter Africa" Vision Route Project (Jul. – Aug. 2016)
Mar. 2017	Vision Care Photo Exhibition featuring works by Joseph Lee launched in 6 US cities

People - special profile

[Vision Care USA]

James Kim, M.D.

Ophthalmologist, Massachusetts Eye Associates, Chelmsford, MA
 Vision Care Eye Camps: Mexico, Ethiopia, Morocco, Mauritania

"Over the past 6 years, I've had the opportunity to participate in several Vision Care Eye Camps. We worked with local medical institutions and screened patients with advanced cataracts and performed cataract surgeries to restore their eyesight. These patients have limited access to medical care and would remain blind without these camps. I am thankful that Vision Care exists to allow me to use my abilities to help those in need outside of the US. These trips have been some of my most memorable personal, spiritual and professional experiences."

Lisa Park, M.D.

Associate Professor of Ophthalmology,
 Columbia University College of Physicians & Surgeons, New York, NY
 Vision Care Eye Camps & Phaco Training Course Instructor: Uganda, Ethiopia

"My favorite day as a cataract surgeon has always been what we call post-op day #1, the day after surgery when we take off the eye patch and see the result of our effort. In my office it is a happy day, when I get to hear patients tell me how bright the world is, how colors are vibrant and how clear things appear. When we operate in Africa with Vision Care, that experience is magnified exponentially – there is often crying or singing and dancing as our patients' lives are completely transformed. We regularly experience the joy of seeing the blind who are led in by family members, get up and walk on their own after surgery – and it seems miraculous every single time."

Daniel Y. Kim, M.D.

Medical Director, St. Mary's Eye & Surgery Center, Palisades Park, NJ
 Vision Care Eye Camps: Peru, Guatemala, Morocco

"Vision Care Eye Camp is an eye-opening experience, regardless of your background. As an ophthalmic surgeon, I still remember my first few cataract surgeries to be more challenging due to the lack of advanced equipment that I'm more used to in the U.S. Through prayers and support from the entire team, I was able to overcome the initial challenges of what an unfamiliar setting brings. I have no doubt that Vision Care Eye Camp will bring an unforgettable and rewarding experience to all."

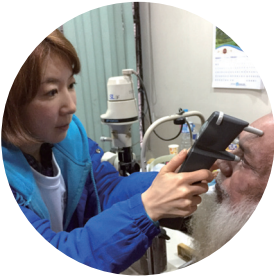

John Lee, O.D.

President, Valley Eye Associates, Westwood, NJ
 Vision Care Eye Camps: Morocco (Safi & Essaouira)

"Each Vision Care Eye Camp has been distinct, each in a special way. The team composition and dynamics can vary, along with the hospital/equipment and local environment. However, one thing that is consistent in each Eye Camp is the fellowship and joy that is felt among the doctors, nurses, staff, other non-medical volunteers, and the patients we serve. At the end of Eye Camp, we all feel blessed to be able to give sight to those in need, and to become closer to one another through our shared experiences. I am grateful to have the opportunity to join these Eye Camps, and to address the unmet needs for quality eye care around the world."

Vision Care Stories

Ophthalmologist / 236th Pakistan Eye Camp

"I read about the international blindness relief activities but did not know how I could help until I participated in the Vision Care's Eye Camp. I was very surprised to learn that Vision Care continuously worked on the international blindness relief activities since 2002 and that so many people participated on a volunteer basis. For me, it was very encouraging and comforting to know."

Surgery Patient / Ethiopia

"After the operation, I was able to read books and play with my friends at school. I was able to do things that previously I was not able to do because of my vision problem. I am very thankful to the people who brought me to the hospital and the doctor who gave me the surgery."

Volunteer / 251st Mozambique Eye Camp

"An older patient received surgery on the same day he was examined by the doctor. I cannot forget his smiling face when we took off his eye shield the next day. Just yesterday, he could not walk by himself, but today he was able to walk on his own. When I gave him the thumbs up, he pointed at my thumb and confidently shouted out "one!" It was the most memorable moment during the Mozambique Eye Camp."

Participant / Phaco Training Course (PTC), Uganda

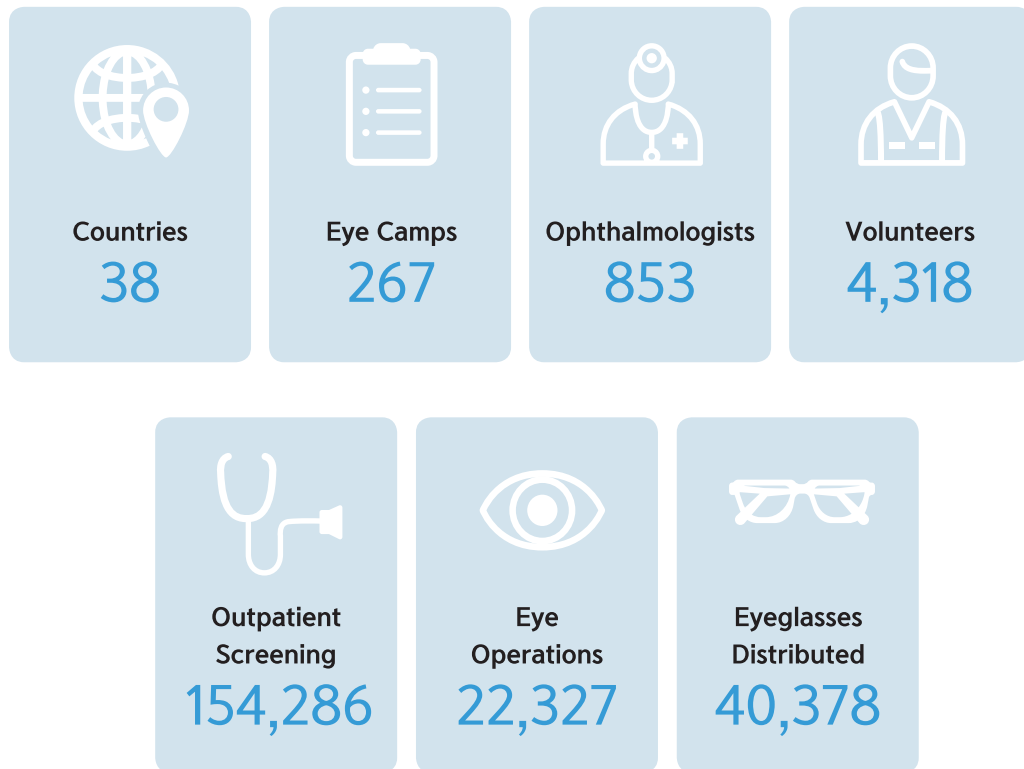

"There is no place where I can have the opportunity to learn such advanced skills for free in Uganda. If there were such opportunities, it was not easy to do since I would have to go outside of the country. I deeply appreciated Vision Care for providing this training program and I will do my best to use the skills learned for the people of Uganda and to pass on these skills to other medical personnel."

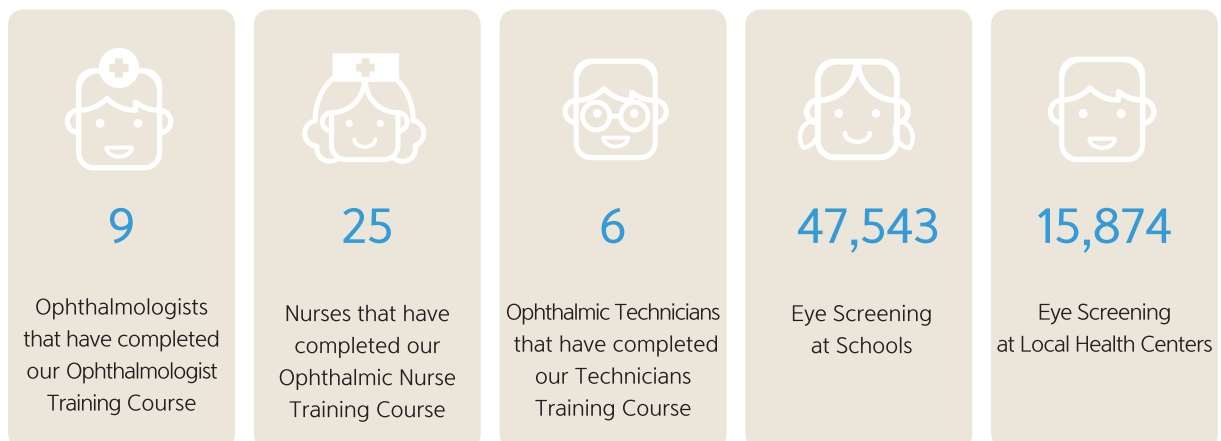

Donor Organization / Sangam-dong Church

"I was surprised to learn how many people's lives can be impacted by restoring a person's sight. It is life-transforming not only for that person, but also for their families. And it is also a life-changing experience for those who participated in this work."

2017 Vision Eye Camp

What is Vision Eye Camp?

Since 2002, our Vision Care Eye Camp is a short-term surgical missions trip and the core project of Vision Care. Each year, Vision Care organizes approximately 30 week-long overseas Eye Camps, partnering with local hospitals to provide 80 to 100 sight-restoring surgeries per trip, in areas with high prevalence of blindness.

[Story of Fiona, from Uganda]

We met a special patient in Uganda during our 260th Eye Camp. Fiona is a 17-year-old girl from Masaka, a city that is 80 miles outside of Kampala. Fiona's mom had congenital cataracts, which unfortunately was inherited by two of her ten children – Fiona and her five year old brother. Fiona, due to her deteriorating eyesight, was unable to go to school for the past three years. Yet when they heard that her cousin was able to regain his sight through Vision Care, Fiona and her mother have longed for Vision Care to return to Uganda.

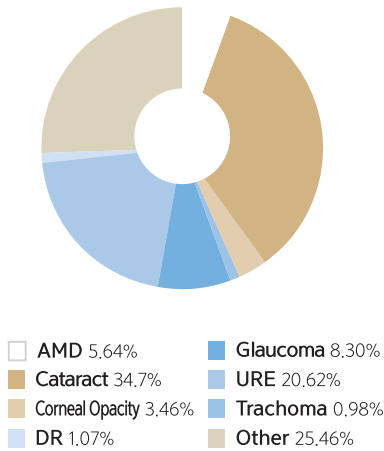

Fortunately, after a careful pre-operative examination, Fiona and her mom were both able to receive surgery through Vision Care in 2017. And after a successful surgery, Fiona is now able to go to school again. In the future, Fiona hopes that her little brother can also receive the surgery.

Fiona dreams of becoming a wigmaker in the near future. We had a very special moment of meeting Fiona and her mom who were inspired with new hopes and dreams.

2017 Vision Eye Center

In order to enhance our blindness prevention work around the world, Vision Care has established a number of branch offices and Eye Centers where we work together with local hospitals and institutions to strengthen ophthalmic capability in sustainable ways, including through eye screening and surgery support, medical systems building support and medical staff training.

Specifically, Vision Eye Centers in Ethiopia and Uganda focus on promoting pediatric eye health by delivering eye screening services and appropriate medical care at the local schools.

Uganda (Bethesda Medical Center)

About Vision Care Ethiopia

Established after the first Eye Camp there in 2008, Vision Care Ethiopia is located in Ras Desta Hospital in Addis Ababa. Our blindness prevention program began in 2010 with the aid of the KOICA Fund for Poverty Reduction, and in 2012, we became an official partner of the KOICA Public-Private Partnership Project. Since then, in 2016-2017 Vision Care Ethiopia has expanded to the Jimma region through its partnership with KOFIH.

* KOICA: Korea International Cooperation Agency

* KOFIH: Korea Foundation for International Healthcare

1. Program for Partnering Hospitals

- Eye screening and surgery at centralized partner hospitals
 - Ras Desta Hospital, Jimma University Department of Ophthalmology
 - Completed 39,687 eye consultations, 19,480 eye examinations and 3,728 surgeries
- Outreach to other local hospitals
 - Menelik Hospital, Dire Dawa Dil Chora Hospital, Sodo University Hospital, Ambo Hospital
 - Completed 16,565 eye consultations, 1,049 eye examinations and 1,499 surgeries

2. Program for Community Eye Health

- Local health clinic
 - 175 total visits to 11 health clinics
 - Completed 2,928 eye consultations, 457 surgeries and 1,721 referrals to hospitals
- Mobile eye clinic and cataract surgery education at medically underserved hospitals
 - 9 total visits in 4 regions
 - completed 2,928 eye consultations, 457 surgeries and distributed 233 reading glasses

3. Program for School Eye Health

- Teachers education on eye health and distribution of eye screening supplies
 - 22 schools and 440 teachers
 - Distributed total of 155 eye charts, educational materials and tape measures
- School eye screening
 - Primary screening: 19,404 cases (screened by teachers)
 - Secondary screening: 3,063 cases, 697 prescription glasses, 56 referrals to hospitals
 - Tertiary screening: 1 case, 74 prescription glasses

4. Constructing Eye Health Infrastructure

- Equipment donation: microscope, Argon laser, retinoscope, OCT, lens edger, autoclave sterilizer, A-scan, cataract surgical kit

5. Building Networks

- Ophthalmological Society of Ethiopia (OSE) annual conference: organized advertisement booth
- Public health professional invitation program (OSE)
- World Sight Day campaign: provided free eye screening in Jimma

Long-term projects: Uganda

About Vision Care Uganda

Uganda is the first country in Africa to implement the VISION 2020 campaign as its national strategy to reduce blindness. Since 2015, Vision Care Uganda has been working towards its mission of preventing blindness in the region by implementing sustainable and accessible ophthalmic healthcare services and helping the country make tangible improvements to its healthcare system.

1. Program for Partnering Hospitals

- Eye screening and surgery at centralized partner hospitals
 - Bethesda Medical Center, Lira Regional Hospital, Gulu Regional Hospital, Hoima Hospital
 - Completed 1,289 eye consultations and 1,058 surgeries including 16 pediatric surgeries
- Outreach to other local hospitals
 - Hoima Regional Hospital, St. Frances Naggalama Hospital, Mukono International Hospital
 - Completed 336 eye consultations and 13 surgeries in 3 regions

2. Program for Community Eye Health

- Eye disease screening program (ESPRO) in Buvuma District
- Eye disease control project in local health clinic
 - Completed 1,638 eye consultations, and 183 referrals for secondary screening
 - 49 total visits to 19 health clinics

3. Program for School Eye Health

- Teachers education on eye health
 - 8 schools and 65 teachers
- School eye screening
 - Primary screening: 6,000 cases (screened by teachers)
 - Secondary screening: 300 cases, 228 prescription glasses
 - Tertiary screening: 46 cases, 224 prescription glasses
- Pediatric ophthalmology project
 - 25 eye consultations and 16 surgeries in 2 hospitals
- Pediatric ophthalmology conference project
 - 4 ophthalmologists and 1 ophthalmic clinical officer

4. Constructing Eye Health Infrastructure

- Equipment donation: visual field analyzer, fundus camera, video recording system, tonometer

5. Building Networks

- College of Ophthalmology of Eastern, Central and Southern Africa (COECSA) annual conference: organized advertisement booth
- Eye Health Meeting
 - Shared project outcomes, discussed MOU with Ministry of Health and consulted local hospitals on how to best support them

2017 Vision Training Program

Vision Care hosts a number of training programs and academic seminars geared towards empowering local health professionals with the latest and most relevant medical knowledge needed to serve their local communities. Participants are encouraged to take advantage of these opportunities to learn about advanced medical techniques and health care systems.

Training Local Health Professionals

1. PTC (Phacoemulsification Training Course): 3 ophthalmologists

- 1) Ethiopia: Dr. Demoze Delelegn Arega, Dr. Tsedeke Asaminew Alemu
- 2) Uganda: Dr. Christine Nabatanzi

2. SONTC (Surgical Ophthalmic Nurse Training Course): 9 nurses

- 1) Ethiopia: Fikadu Negese Gutema, Getaneh Birhane Alemu, Helen Berhane Yifter, Meaza Tsegaye G. Mariam, Melese Alito Abube, Sosina Asfaw Bezabeh
- 2) Uganda: Mpirigwe Azoli
- 3) Tanzania: Tumaini Mango, Mwanahamis Mgomba

3. OTTC (Ophthalmic Technician Training Course): 4 technicians

- 1) Ethiopia: Atrisaw Tasew, Etsegenet Birrhane, Semira Idris Husen, Belachew Paulos

Trainee Invitation Program

1. Ophthalmologist invitation program

- 1) Date: Dec 2, 2017 – Dec 19, 2017
- 2) Participants: Dr. Gezahgn Fitsum Bekele, Dr. Gessesse Girum Woldegebreal, Dr. Shibeshi Menen Ayalew, Dr. Wondimagegn Helen Sisay (Ethiopia), Dr. Ann Ssali Grace, Dr. Christine Nabatanzi (Uganda)
- 3) Visited institutions: Myung Dong St. Mary's Eye Center, Jeil Eye Clinic, Asan Medical Center, DMC Good Eye Clinic, Pureun Eye Clinic, Samsung Eye ENT Clinic, Vision Care

2. Pediatric ophthalmologists/ strabismus invitation program

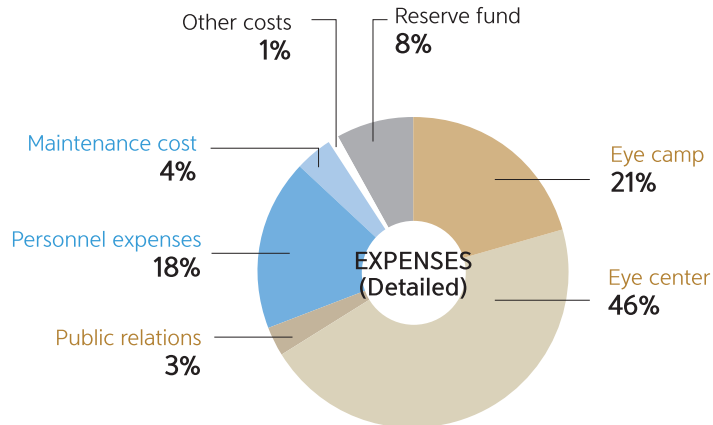

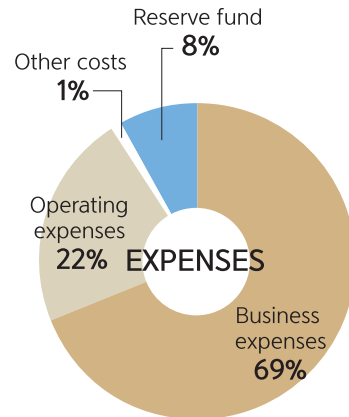

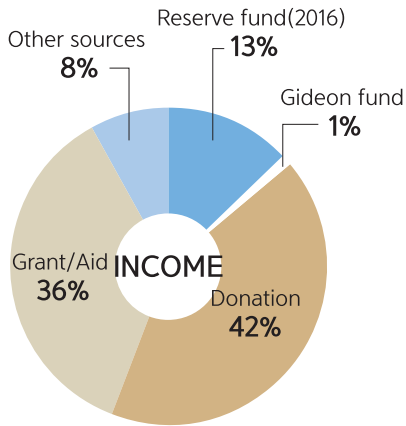

- 1) Date: Nov 18, 2017 – Dec 28, 2017
- 2) Faculty: Dr. Hyejung Baek, Gacheon University Gil Medical Center
- 3) Participant: Dr. Wondimagegn Helen Sisay (Ethiopia)

–Dr. Gezahgn Fitsum Bekele

I believe that we have to learn to respect patients as individuals. In Africa, there are still many underserved areas that need support. I appreciate Vision Care for all their work and effort. Through this invitation program, I am inspired to work harder to provide a good eye health service in Ethiopia.

2017 Campaign & Event

[Vision Care Korea]

World Sight Day '2017 Vision Week' Campaign

Vision Care held its '2017 Vision Week - Let's Make a Miracle Together' campaign to commemorate World Sight Day on October 12 of this year. Through this week-long campaign, which included both online as well as offline events in Myungdong and Cheonggyecheon, Vision Care had the opportunity to increase public awareness of World Sight Day and blindness prevention activities to around 1,230 people.

World Sight Day, recognized by the World Health Organization (WHO) and observed annually on the second Thursday of October, helps to focus attention on global blindness and visual impairment.

'Good Eye Clinic' Campaign

In the summer of 2017, the 'Good Eye Clinic' campaign - which followed the earlier 'Good Optician' campaign - was launched to increase support to those who are suffering from global blindness and visual impairment. Six eye clinics participated through this campaign.

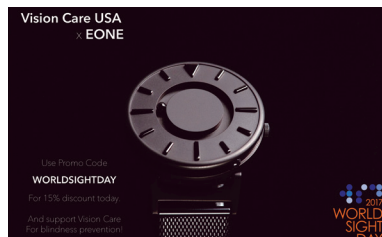

2017 Campaign & Event

[Vision Care USA]

EONE Campaign

Vision Care launched a special collaboration on World Sight Day (October 12, 2017) with EONE - a timepiece with a unique design inspired by the needs of the blind but made for EVERYONE - where 100% of EONE's sales profit on this day went to support Vision Care's blindness prevention work around the world. Through this campaign, we raised \$7,039.50 for Vision Care.

Vision Care Photo Exhibition

Vision Care USA, along with the Vision Care East and West branches, held a photo exhibition "Road to the Light - Africa" across 6 cities (New York, New Jersey, Pennsylvania and California) to raise awareness and support for our blindness prevention work in Africa. The photo exhibition & reception featured the work of photographer and author Joseph Lee who accompanied Vision Care Founder Dr. Donghae Kim and his medical team for 2 weeks in Tanzania, Uganda, and Kenya to capture Vision Care's sight restoration and blindness prevention activities in these countries. The two-week visit took place during Vision Care's 2 month "Let's Make a Brighter Africa" Vision Route Project, spanning 9 countries across Southeast Africa.

“Give the Gift of Sight” Year-End Campaign

The "Give the Gift of Sight" on-line Campaign, which was launched on #GivingTuesday (November 28th) through December 31st, enabled us to exceed our fundraising goal of \$15,000. The proceeds, which totaled \$15,700, will go to fund new sets of cataract surgery instruments and other medical supplies for our 2018 Overseas Eye Camps.

2017 Special News

[Vision Care USA]

Vision Care is a Proud Partner Organization of the ASCRS Foundation

In May 2017, Dr. Lisa Park (Board Director of Vision Care USA) and Dr. Donghae Kim (Founder and President of Vision Care) attended the ASCRS (American Society of Cataract and Refractive Surgery) Annual Meeting held in LA, where they led an instructional course titled "Preparing for Surgical Missions: Video Course on M-SICS Technique and Panel Discussion". The panelists and presenters included representatives from the Aravind Eye Care System, Himalayan Cataract Project, Moran Eye Center, and the ASCRS Foundation.

During this conference, Vision Care also hosted a dinner in honor of the Ethiopian doctors/educators and the ASCRS Foundation International Committee members. The attendees included Dr. David Chang, Former President of ASCRS and Chair of the ASCRS Foundation International Committee, Dr. Geoffrey Tabin, Co-Founder of the Himalayan Cataract Project, and Dr. Fikru Melba, former Director of the Res Desta Hospital in Addis Ababa, Ethiopia.

2nd Annual Local Eye Camp

To support the local community in need, Vision Care USA held 2 annual Local Eye Camps since the establishment of its New York based HQ office in 2016 - the first in Palisades Park, NJ, and the second in Flushing, NY, both at the offices of the St. Mary's Eye and Surgery Center. On this day, our Vision Care volunteer doctors provided free eye examinations for up to 100 individuals in the local community and selected those patients who require cataract surgeries, but are uninsured and facing financial difficulties, to receive the surgeries free of charge. The Vision Care West branch has organized similar Local Eye Camps in the LA area since 2012.

Special Profile – Dr. Lisa Park

[Vision Care USA]

Dr. Lisa Park is a Vice President of Vision Care USA and an Associate Professor of Ophthalmology at Columbia University College of Physicians & Surgeons. She is a graduate of Harvard College and Yale University School of Medicine. She completed her residency at New York University and fellowship in anterior segment and refractive surgery at Manhattan Eye, Ear & Throat Hospital. Dr. Park served as a faculty member at NYU for 11 years where she was Associate Director of Residency Training and Chief of Ophthalmology at Bellevue Hospital Center. She joined the Columbia faculty in 2017 and currently practices in midtown Manhattan.

Dr. Park began working with Vision Care in 2013, when an elder from her hometown church in Philadelphia retired and moved to Ethiopia as a medical missionary, and convinced her to come and work with Dr. Donghae Kim. With her teaching experience she became an instructor in Vision Care's Phaco Training Course, which has now trained 10% of Ethiopia's cataract surgeons in modern cataract surgery techniques.

Dr. Park also serves on the ASCRS (American Society of Cataract and Refractive Surgery) Foundation International Committee, collaborating with like-minded NGOs that share Vision Care's mission of curing world blindness.

Performing surgery at the ASCRS Sinskey Eye Institute in Addis Ababa, Ethiopia.

▲ Organizing a course at the ASCRS Annual Meeting on Perspectives on Fighting Curable World Blindness.

▲ Leading Vision Care's Phaco Training Course (PTC) with Dr. Geoffrey Tabin, Co-Founder of the Himalayan Cataract Project in Kampala, Uganda
