Sightshare Mobilizes High Schools to Support Morocco Vision Eye Camps

Vision Care USA is proud to partner with **Sightshare**, a student-led organization dedicated to expanding access to eye care and raising awareness among youth about visual impairments and disabilities.

During the past year, Sightshare has been actively fundraising through several high schools nationwide to support our upcoming Morocco Eye Camps, raising over \$1,700.00 to help provide sight-restoring surgeries and other vital eye care to the communities of Agadir and Zagora this April and May.

We extend our heartfelt thanks to the high schools that have participated in these efforts:

- Stuyvesant High School (NY)
- Eleanor Roosevelt High School (NY)
- Crescenta Valley High School (CA)
- James E. Taylor High School (TX)

Sightshare was founded by siblings Jiwon and Junseo Lee, inspired by personal experiences and a desire to support others facing similar challenges. After undergoing eye surgery as a child, Jiwon was moved by the support she received and aimed to offer the same to others. The siblings were also deeply affected by how blind individuals were perceived around their community, which motivated them to promote understanding and empathy through education.

Sightshare raises awareness about visual impairment and works to assist visually impaired youths globally, driven by the belief that informed and compassionate young people can make a powerful impact.

Moreover, Sightshare creates opportunities – like voice letters and music events – for youth to connect with the visually impaired community and to share joy together.

2025 Vision Eye Camp & PTC Schedule
